

# Benn Graham

Web Developer

**Phone** | 647-292-4161  
**Email** | [benngrahamdev@gmail.com](mailto:benngrahamdev@gmail.com)  
**Location** | Toronto

## Employment History

### Brev.io

2023 – Present

*Web Development Intern*

- Design and implement custom React components (TypeScript) for a serverless web application built on SST, integrating various AWS services.
- Utilize Sentry for robust error monitoring and debugging, and implement ESLint to enforce code quality and maintainability.
- Collaborate closely with designers to translate Figma designs into pixel-perfect, responsive user interfaces.
- Proactively optimize application performance through techniques such as lazy loading, memoization, and debouncing events.

### The Tailored Closet

2012 – Present

*Lead Installer & Supervisor*

- Lead a team of installers to deliver high-quality custom organization solutions, based on detailed customer specifications.
- Collaborate with designers and clients to understand needs and proactively troubleshoot issues, resulting in consistently positive outcomes.
- Identify and resolve on-site challenges for thousands of installations, ensuring timely project completion and client satisfaction.

## Education

### George Brown College

*Computer Programming and Analysis*

2022 – 2025 (Expected)

- Data Structures and Algorithms
- Advanced Database Development (SQL)
- Agile Software Development
- Advanced Object-Oriented Programming
- Advanced Web Development
